PLATINUM-GROUP METALS IN OCTOBER 2006

According to Platts Metals Week, the average October price of palladium and platinum continued downward, 3% and 8% lower than their respective September averages. This was the second month in a row of price declines in these metals. The price of rhodium was 2% more than its September average price. The

average October ruthenium price increased 13% compared with that of September owing to increased demand from the electronics industry. The October average iridium price remained the same as the September price.
